

REMARKS

Claims 1-20 are pending in this application. By this Amendment, independent claims 1, 2, 4-6 and 8 are amended to even further distinguish over the applied reference, and claims 9-20 are added. Support for the amendments to the claims and the new claims can be found in the specification at least, for example, at page 12, line 25 to page 13, line 13, and in Fig. 6. No new matter is added. Reconsideration of the application in view of the above amendments and the following remarks is respectfully requested.

Applicants appreciate the courtesies shown to Applicants' representative by Examiner Augustine in the July 20, 2007 personal interview. Applicants' separate record of the substance of the interview is incorporated into the following remarks.

The Office Action rejects claims 1-8 under 35 U.S.C. §102(b) over Chen et al. (U.S. Patent No. 6,249,281 B1) (Chen). Applicants respectfully traverse the rejection.

As the Examiner agreed during the personal interview, Chen fails to teach or suggest still picture data that is extracted from video data and displayed in different sizes, as recited in independent claims 1, 2, 4-6 and 8. Thus, claims 1-2, 4-6 and 8 are patentable over Chen.

For at least this reason, Applicants respectfully submit that the rejection of claims 1-8 should be withdrawn.

Applicants also respectfully submit that new claims 9-20 are allowable based on the dependence of each of these claims from one of the respective independent claims 1, 2, 4-6 and 8, as well as on the additional features these claims recite.

In view of the foregoing, it is respectfully submitted that this application is in condition for allowance. Favorable reconsideration and prompt allowance of claims 1-20 are earnestly solicited.

Should the Examiner believe that anything further would be desirable in order to place this application in even better condition for allowance, the Examiner is invited to contact the undersigned at the telephone number set forth below.

Respectfully submitted,

James A. Oliff
